What is new at school ????

A new class:

In our school , there is a new class : ULIS (Unité Localisée d'Inclusion Scolaire).

There are twelve pupils aged from 12 to 15 years old.

They have the same subjects (French, Physical Education, History, ..) and they come with us in classes (for example in physical education).

They have more difficulties to learn so they are in this class. There are two persons to help them : a teacher (her name is Mrs Estace) and Florence.

Later, they will come with us in class in different subjects.

Works: the school is changing.

We build a lift for handicapped people, and for people with a broken leg.

There is a passage for wheelchairs.

In the cafeteria there is the entrance for a lift.

It's good because before when we had broken leg it was dangerous to go to English class or French class for example.

We need the lift for access to rooms because this year there are handicapped students.
